

RADIATOR TREATMENT ADDITIVE
Coolant Supplement Additive

Mobile Coolz...[®]
TM

Mobile Coolz...SPT Radiator Treatment Additive is the "Supplement Treatment " to which solves Most of cooling system problems. Reduces cavitation problems up to 93% on Most of the Heavy duty engines.

Mobile Coolz...SPT is Coolant Additive Supplement which maintains cooling system efficiency - helps eliminate costly breakdowns.

Mobile Coolz...SPT works to prevent corrosion - effective on all radiator metals, including aluminum, copper and steel.

Mobile Coolz...SPT is formulated to protect & lubricate water pump bearings and seals. Prevents screeching of water pumps.

Mobile Coolz...SPT is the special radiator treatment additive that: Combats engine failure - prolongs engine block & cylinders liners life.

Eliminates formation of mineral scaling on radiators.

Checks premature water pump and cooling system parts failure.

Ensures proper thermostat operation.

Mobile Coolz...SPT provides long-lasting insurance against common radiator & cooling system problems. One application provides up to 1 year of protection under standard test conditions.

Mobile Coolz...SPT lubricates the water pumps bearings, Protects seals, thermostat, cylinder liners and all parts in the cooling system to ensure prolonged service life.

Mobile Coolz...SPT protects rubber, plastic, aluminum, copper and steel radiator parts from deterioration and corrosion.

Use Mobile Coolz...SPT confidently in all water-flow radiators.

Usage Instructions

1. Add Mobile Coolz...SPT in Ratio 5% to the coolant in the Radiator. No need to drain or clean. Keep topping up as & when required with coolant & Mobile Coolz...SPT

MAKES 4 LITERS OF SUMMER COOLANT.

Non-Hazardous
Ecologically Friendly

Additives
ARE MADE IN USA

**THE NO. 1 CAUSE FOR ENGINE
RELATED BREAKDOWN IS
COOLING SYSTEM FAILURE**

CAUTION : DO NOT REMOVE
RADIATOR CAP WHEN ENGINE
IS HOT. Keep out of reach
of children & animals.

Pack Size:

8oz / ½ PT / 236 ml

Packaging Size:

36 Cans of 236 ML
